## CAREER SUMMARY

A technically savvy senior web developer, with multiple years of design & development experience. I can be a strong driving force for improving the performance, scalability, and reliability of development projects. Having a long track record of creating dynamic websites, Apps, and portals, also providing solutions to front-end and Backend problems.

My skills and competence have enabled me to develop world-class sites and completed challenging client projects. As a self-directed and motivated person, I have always pushed myself to deliver projects within a stipulated time frame, constantly seeking improvements in anything I do.

Right now, I am currently looking for a suitable position to join an enthusiastic team that enjoy what they do.

## TECH STACKS / FRAMEWORKS / DATABASE
